Many people think of Hong Kong as a rich nor prosperous city and a lot of citizens actually earn very few money. Some of them even find living in Hong Kong too expensive so they cannot afford the high rent here. I want to be a social worker if I grow up. I want to be a caring person who listens others' problems patient. I want to help these people to improve theirs living environment.

I hope that in the future, there will not be enough flats for all the poor people to lived in. The flats need to be cheap so that most people can to afford them. They need to be big so that people can live comfortable.

Neither small cubicles or sub-divided flats should be the characteristic of amazing city like Hong Kong. Both the rich the poor have helped to build Hong Kong into a big city so that everyone should have a nice place to live in.
