Janet's Blog

My family

3:12 p.m. 23-11-20XX

My family members are wonderful. Let me tell you about them.

My mother works for primary school students but she doesn't teach them any subjects. When they have problems, especially when they are not happy or lost, they go to her. She listens to them patiently and shows them that she understands how they feel. A lot of students trust her because she talks to them and help them solve their problems.

My father often works in danger and rescues people's lives but he shows no fear. He can also think clearly in stressful situations. To do his job, he does exercise and trains every day. He is not a doctor, but he often says, 'Every life deserves to be saved'.

Edmond is my elder brother. He is humorous and can often think up funny new jokes that can make us laugh and laugh. He wants to be a successful comedian when he grows up. He has made video blogs and puts them on the Internet. Thousands of people have viewed his hilarious videos. He is very popular. I believe his dream will come true.

My elder sister is Tammy. She is tall, thin and has beautiful skin and hair. She likes wearing beautiful clothes. I think she can be a model but she thinks otherwise. She likes keeping up to date with current events. If she can do her dream job, she'll meet and talk to different kinds of people. And she may travel to different parts of the world.
