Note: Numbers in English are read in groups of three digits. The conjunction 'and' should appear only once between the last two (groups of) significant digits. Study the following examples:

- **604:** six hundred AND four
- **799:** seven hundred AND ninety-nine
- **1,003:** one thousand AND three
- **13,546:** thirteen thousand five hundred AND forty-six
- **23,368:** twenty-three thousand three hundred AND sixty-eight
- **59,025:** fifty-nine thousand AND twenty-five
- **811,307:** eight hundred eleven thousand three hundred AND seven.
- **1,376,263:** one million three hundred seventy-six thousand two hundred AND sixty-three
- **28,383,118:** twenty-eight million three hundred eighty-three thousand one hundred AND eighteen
