Hello there it's me again, i've already done four times of the quiz on the website, but every time I finish it, it jumps back to the first page welcoming me to join, which causes me to not be able to do other tasks, can you perhaps tell me what is the problem thank you very much

Above is a message from a parent who is using our English Gym, can IT team help fixing this bug? We may have more parents facing the same issue. Thanks

Hello there, I have been practising for my script on the website for more than five times, but only twice was recorded and scored, the other times it just loaded for a few minutes and then popped back to the original page, thank you for your concerns

above is a student feedback, her login: s171026@gtcollege.edu.hk
