

they agree on.

THE ECONOMY. Investing in an economy centered on innovation that creates millions of good-paying jobs and provides every American a fair opportunity to prosper. The economy should be sustainable and not contribute to climate change, environmental degradation, and so on.

SECURITY. Through military strength, strong diplomatic alliances, and wise foreign and domestic policy, every American should be safeguarded at home, and America's role in the world should be strengthened by helping people around the world live better lives.

HEALTH. Every American should have access to a state-of-the-art, affordable health care system.

EDUCATION. A vibrant, well-funded, and expanding public education system, with the highest standards for every child and school, where teachers nurture children's minds and often the children themselves, and where children are taught the truth about their nation—its wonders and its blemishes.

EARLY CHILDHOOD. Every child's brain is shaped crucially by early experiences. We support high-quality early childhood education.

ENVIRONMENT. A clean, healthy, and safe environment for ourselves and our children: water you can drink, air you can breathe, and food that is healthy and safe. Polluters pay for the damage they cause.

NATURE. The natural wonders of our country are to be preserved for future generations, and enhanced where they have been degraded.

ENERGY. We need to make a major investment in renewable energy, for the sake of millions of jobs that pay well, improvements in public health, preservation of our environment, and the effort to halt global warming.

OPENNESS. An open, efficient, and fair government that tells the truth to our citizens and earns the trust of every American.

EQUAL RIGHTS. We support equal rights in every area involving race, ethnicity, gender, and sexual orientation.

PROTECTIONS. We support keeping and extending protections for consumers, workers, retirees, and investors.
